

EXCEPTIONAL PERFORMANCE. EVERY DAY TOUGHNESS.

MTP3000 SERIES ACCESSORIES FOR MOTOROLA TETRA RADIOS

Whether chasing a suspect down a busy street or calling maintenance to a bustling metro station, you depend on communications that perform in demanding environments. That's why it's critical to choose the only accessories designed, tested and certified to work optimally with Motorola TETRA radios. Our comprehensive portfolio of MTP3000 accessories delivers on that promise – with improved connectors and new enhancements for exceptional audio.

STRONGER, SECURE CONNECTIONS

From the pipeline to the fire line, our MTP3000 accessories are so robust and reliable, they'll outlast your most action-packed days. A newly designed, durable, compact, 8-pin connector ensures the accessory stays attached –whether you're jumping over barriers or climbing up ladders. With its tightly sealed radio interface and IP55 rating, your accessory can be exposed to water without losing the connection. Yet the connector is so slim, it won't add bulk to the radio.

EXCEPTIONAL AUDIO EVERY DAY

The audio profiles on our MTP3000 accessories make hearing clearly almost effortless. They ensure you get the best performance possible by adapting to how the accessory is worn – in the ear, on a lapel and more. Simply plug in the accessory and select from the menu to experience exceptional audio. The MTP3200 and MTP3250 deliver Bluetooth connectivity, which increases the user's operational flexibility and productivity in the field by offering wireless accessories. When it comes to high performing accessories at an affordable price, count on Mag One, the only value-line accessories tested and certified by Motorola.

IMPRES PROVIDES INSTANT IDENTIFICATION

Plug in an accessory from our IMPRES line – such as the remote speaker microphone (RSM) – and your radio automatically identifies it and loads the correct profile to optimize audio performance. What's more, our IMPRES large-speaker RSM matches the high-powered speaker on your radio for even better communications in high-noise environments – essential for crowds or lots of traffic.

FLEXIBLE AND FUTURE-READY

We designed our portfolio of accessories to answer your needs today and evolve with you tomorrow, with capabilities such as integrated Bluetooth and more.

TESTED TOUGH AND PROVEN TOUGH

Power your radio and accessories with the only batteries Proven Tough. Time after time, in lab test after test – for Drop, Vibration and ESD (Electrostatic Discharge) – Motorola batteries withstand shocks, knocks, drops and shakes, and outperform the leading brands. If your radio gets banged on a ride, rattled by heavy equipment or shocked by static electricity, you can depend on our batteries to keep working.

Save energy and money by using your existing TETRA chargers to power up your MTP3000 series radios and accessories. Simply mix and match in your existing 6-unit chargers.
